# NEWSLETTER

## Welcome to our newsletter

We thought we would try something new here at Seba Dizajn... a monthly newsletter to recap our last month of Facebook posts, twitter comments and favourite photos. We hope that you follow us throughout the month but if not, then this will be your quick catch up!

We aim to bring you a fresh look at traditional filigree jewellery and share our passion for this beautiful delicate art.

Favourite Photo - “Visitors at the store today, my lovely sister Ermina and my Dad. Heh they are taking over my work bench!” - July 28th

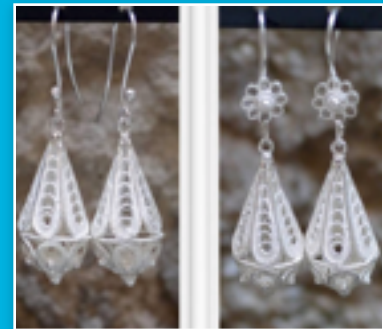

## Our most popular “Did you know?” segment

Did you know?

The old town of Korcula design is based on a fish bone pattern. Its spine is the longest street, protruding directly towards north. It is crossed by about a dozen shorter streets, which on the other end meet the circumferential one. The design was used to reduce effects of wind and sun and provide citizens with sheltered and comfortable accommodation - July 9th
